

Faux Chenille wall hanging Requirement List

You will need 7-8 layers of fabrics - I recommend fat quarter size, as this is not too big to achieve in a day and big enough to make an interesting wall hanging. If you'd like to make a cushion, you will need 14" squares. As we will create pattern / design of the hanging with the different fabrics exposed, you will mostly need plain-ish fabric or with small pattern of colour on colour.

Out of these 8 fabrics: one will be on the top and this one should be plainish fabric, you will also need two which are in a contrasting colours, we will be exposing some layers and this should bring interesting effect. All the others can be similar in colours, they can have small patterns even, it will more or less get lost in it. Just bring a selection and we can always decide which one to use on a day.

Matching threads

Pointy scissors, with good sharp tip!

Chenille cutter if you have one – not essential

Fabric marker, which will be easy to see on the fabric you have chosen for the top

Sewing machine + walking foot if you have one

Ruler (we don' need the mat or cutter)

Usual sewing kit with pins, etc.
